TNC
TransNational Computer L.L.C.

MAKE YOUR BUSINESS GROW BEYOND.

TransNational Computer LLC is a Dubai based leading IT and Accounting Software solution provider supplying high-quality implementation and support services. We are Master Partner for Intuit QuickBooks and Sage and have been representing them in 20 countries across the globe.

In 1995 we stepped into IT industry as a PC assembler and became one of the few IT companies to have achieved its position through "organic growth". Later, we saw an opportunity in helping small & medium businesses to provide them business solutions and thus started dealing into the Accounting Software packages, CRM & HR & Payroll software, and small business applications.

We also provide customized software solutions for SME's. We have added additional experience to our portfolio such as Software Implementation, Software Troubleshooting, Crystal Report writing etc. We offer our customers a wide range of products backed by proactive support, competitive pricing, and superior services. We represent many Global Software Companies as their Premium Partner in the region.
